

[STATE] T/C w/Gav, Knapp, O'Donohue, DM, JA, Weber, Vetter 9/17/20

McBride — pre-positioning is needed

Vetter: ① high-value assets ② crowd control ③ air surveillance,

Knapp — NG will provide support for "high-value assets," rear-guard crowd control, and ^(maybe) airborne surveillance. FBI can provide arrest extraction vehicles (armored), and should be asked for air support (helicopters). NG would have a problem w/ using air support (political issue).

Next steps: Gen. Knapp and Gen. O'Donohue will coordinate w/ WPD, etc. to prepare and provide needed resources.

Weber: Do we need to exhaust EPS before getting NG help?

Knapp: No, NG will be pre-positioned.

Gov. Evers has already approved this.
